4.5 Lunch Break, Rest Periods and Hot Meal

All employees shall be allowed one-half (1/2) hour off for the mid-day meal, which half hour shall be included in the working hours above stipulated.

Every employee shall receive two (2) fifteen (15) minute rest periods in each eight (8) hour shift.

All employees shall receive a fifteen (15) minute rest period before commencing one (1) hour of overtime work and shall receive an additional fifteen (15) minute rest period after each additional two (2) hour period.

Employees who are required to work two (2) or more hours of overtime continuous with their regular shift shall be granted a meal allowance of twelve (12\$) dollars as of January 1st, 2023.

4.6 Call-In

A regular employee must be notified four (4) hours before quitting time if he is not to report for work the next day. If he/she is not notified, work shall be provided the following day.

Any employee called out to work for less than a half (1/2) day shall receive not less than one-half day's wages.

4.6.1 Emergency Call-In:

When an employee is called in for breakdown or emergency work after completing his/her scheduled shift and before returning to work for his/her next regular shift, he/she shall be paid for at least four (4) hours at the appropriate rate, minimum of four hours at double time.

Should this call-in period immediately precede his/her regular shift, he/she will be paid straight time for the hours worked on his/her regular shift.

4.6.2 Regular Call-In:

When an employee is called in for other than breakdown or emergency work within four (4) hours preceding his/her regular shift, he/she is entitled to an overtime payment at the appropriate rate for the time period worked prior to the commencement of his/her regular shift. He/She will then be paid straight time for the hours worked on his/her regular shift.

4.7 Friday Shift Schedule

It will be the practice to arrange Friday shift schedules in the bottleshop and canline so that the afternoon shift will have completed their work by 9:00 pm. This schedule should be utilized whenever production levels allow for it and will be accomplished by starting the afternoon shift 3 hours early.

The Company will indicate whether or not production requirements will allow for the early start with as much notice as possible and will confirm no later than 2:00 pm Wednesday of that week.

4.8 Banking Overtime

It is understood and agreed that an employee may at his/her discretion apply all or a portion of his/her overtime hours towards an equivalent amount of hours of time off using the appropriate overtime rate. For example, an employee who works one hour of double time his/her regular rate shall be reimbursed in one of the following ways:

1. Paid at two (2) times his/her regular wage rate, or;
2. Upon Supervisor approval and provided the time off does not impact upon the operation or cause any additional costs, the employee would be granted two (2) hours time off at his/her regular wage rate.

The following controls will apply to the banking of overtime:

- (a) The maximum number of hours that may be banked in a calendar year by any employee shall be 80 hours at any one time. Once an employee has drawn on the bank either by taking these hours as time off or cashed out, an employee will be allowed to replenish the bank to the maximum cap of eighty (80) hours. The maximum number of hours that an employee may take as time off will be limited to eighty hours (80) per year.

- (b) The intent of this plan is that employees take significant blocks of time off at any one time, i.e., one (1) week. Time off for periods as short as one (1) day will be granted on occasions where reasonable notice is given and shift change premium is not required for the man's/woman's replacement and subject to point (2) above.

- (c) Banked time is accumulated over a calendar year. Employees are not required to take their banked time off during the calendar year in which it was accumulated but must use their entitlement by March 31st of the following year. To qualify for using this entitlement in the period December 1 to March 31, the employee must have previously scheduled his/her vacation entitlements. Banked time off not taken by the March 31st deadline will be paid at the rate it was banked. Banked time off may be taken between September 1st and April 30th. Time off will be arranged by requests to the immediate Supervisor, and such requests shall be accommodated where time off does not interfere with the operation of the plant and subject to point (2) above. Following the finalization of the vacation schedule on March 31 of each year, requests for remaining vacation and banked time off will be considered and approved on a first come first served basis. The scheduling process of vacations prior to March 31 shall take preference over the scheduling process of banked overtime in the event of any conflict. Requests for banked time will be approved only after the banked time has been accumulated and will be confirmed the week before by Friday 10:00 am.
- (d) Maintenance department employees may not take their accumulated time off during the annual overhaul periods, but their requests for time off outside September 1st to April 30th will be granted where possible.

- (e) Employees may, at their discretion, request payment in cash for overtime hours banked. All such requests must be made in writing and signed by the employee making the request. Overtime monies will be included in the employee's regular direct deposit pay following the request provided a minimum of one (1) week's notice is received prior to issuing direct deposit.

4.9 Shift Continuance

Shift overtime for shift extension expected to be two (2) hours or less will be offered to employees currently on shift as shift continuation. If overtime is expected to be longer than two (2) hours, this clause and other relevant clauses will apply.

Applies each year from 2022- 2026:

A Cost of Living Allowance in a lump sum payment will be paid to regular employees for all hours worked, including vacations and general holidays, in the period from April 1, 2000 to March 31, 2001, the first pay period following publication of the March 2001 Consumer Price Index, on the basis of one (1) cent per hour for each full 0.3 change in the Consumer Price Index, (2002 = 100) in the period from April 1, 2000 to March 31, 2001 calculated by subtracting the Consumer Price Index for the month of March 2000, after adding thereto 4% of the March 2000 Consumer Price Index, from the Consumer Price Index for the month of March, 2001.

5.7 Variable Compensation (Performance Bonus)

Principles for the Variable Compensation Program:

- (a) This plan applies to permanent, active seniority employees only.
- (b) The performance bonus will be calculated based on the base hourly rate multiplied by the active hours worked to a maximum 2080 hours in a calendar year. For greater clarity, active hours worked does not include hours lost due to layoff, WI, WCB, LTD, sickness, or leave of absence.
- (c) Payout will be made in the form of a onetime annual lump sum coincident with payment of the salaried employee performance bonus which is presently paid in April of the following year and will be subject to normal statutory deductions.
- (d) This variable component will not be included in the base hourly rate for any calculation.
- (e) The annual amount of the percentage bonus opportunity will be as follows:
- (f) Employees with a seniority date which predates March 22, 2010:

Year starting January 1, 2017	Up to 7%
Year starting January 1, 2018	Up to 7%
Year starting January 1, 2019	Up to 7%
Year starting January 1, 2020	Up to 7%
Year starting January 1, 2021	Up to 7%

- (g) Employees with a seniority date acquired after March 22, 2010:

Year starting January 1, 2017	Up to 10%
Year starting January 1, 2018	Up to 10%

Year starting January 1, 2019	Up to 10%
Year starting January 1, 2020	Up to 10%
Year starting January 1, 2021	Up to 10%

(h) For greater clarity, the following will apply for partial years of work:

(a)	Termination	not eligible for any payment
(b)	Resignation	not eligible for payment
(c)	Retirement	prorated based on number of hours worked (including vacation) within the calendar year
(d)	Layoff/closure	prorated based on hours worked within the calendar year

(i) How the calculation works:

1. Management will determine a list of common targets in each calendar year.
2. Each target will be weighted with the sum of all targets equal to 100%.
3. Results will be based on full calendar year performance and each target will be either achieved in full or considered not achieved (no partial completion).
4. The sum of the achieved targets will determine the overall percentage achievement for the entire brewery and logistics group.
5. The bonus will be calculated as follows:

1.	Number of active hours worked (as defined above)
----	--

	multiplied by
2.	Base hourly rate
	multiplied by
3.	Percentage bonus opportunity
	multiplied by
4.	Percentage achievement of annual targets

6. The parties agree that notwithstanding any other provision in the collective agreement, no grievances will be filed, processed or arbitrated concerning any aspect of the Variable Compensation (Performance Bonus) Program since any disagreements concerning the Program do not constitute a difference between the parties for purposes of the collective agreement and the Labour Relations Act.

Where an employee is disabled due to a sickness or a non-occupational accident, a weekly benefit amounting to 75% of wages (applicable classified hourly rate X 40) in effect during the 26 week period will be paid to an employee who is off work and under the care of a doctor.

Payments will commence on the first day of the disability, if due to an accident, and on the fourth day, if due to a sickness provided medical attention is received, and will continue to a maximum of 26 weeks for any one (1) period of disability. Advances by the Company will be suspended if documentation is not received within two (2) weeks of date of absence.

9.2.3 Long-Term Disability

Should the disability, described above, continue beyond the end of the 26th week, the insured Long Term Disability Plan will commence at the 27th week and will continue until recovery, or age 65, whichever occurs first.

The L.T.D. Plan will provide the payment of 60% of wages (applicable classified hourly rate X 40) in effect during the first 78 weeks of the Long Term Plan.

Should the disability continue past the 104 weeks period (26 weeks + 78 weeks) the future weekly benefit will be calculated at 60% of wages (hourly rate X 40) in effect at the 104th week of disability.

The parties agree that in interpreting the dental plan language both within the body of the Collective Agreement and attached to it, that the definition of a "year", unless otherwise specified as a "calendar year", shall be deemed to mean "a rolling 12 month period".

For example: on page 64 of the Collective Agreement it reads: "topical application of fluoride once in each year" -- effective immediately the parties shall interpret this as once in a rolling 12 month period. That is, if the employee received the above mentioned treatment on April 5, 1992, he/she would be eligible again on April 5, 1993.

Apprenticeship Program

In respect to the employment conditions for apprentices that are not specified in this letter, all other clauses of the Collective Agreement will remain in effect.

Definition of Apprentice

For the purpose of this Letter of Understanding, an Apprentice will be defined as a person without a current Skilled Trades classification.

Program Administration

1. The Company reserves the right to determine the need to staff an apprentice position. At no time will the number of apprentices within the plant exceed two (2) at any one time, unless otherwise mutually agreed.
2. An apprenticeship committee, consisting of two Union and two Company representatives, will administer selection of candidates and assessment of apprentice work performance. Decisions of the committee will not be subject to the grievance procedure.
3. The apprentice must maintain satisfactory work performance (assessed by the Apprenticeship Committee every six (6) months) and academic standing in the program. Failure to do so will result in removal from the program.

3. It is intended that apprentices in the program would receive the equivalent of normal pay or wages while in school (no premiums would apply). Candidates must apply for and fulfill all ongoing requirements for any Provincial or Federal support programs. With the continuance of full pay to the candidate according to the regular pay schedule, candidates are required to turn all monies received from the Provincial and/or Federal programs over to Labatt.

5. Any apprentice who fails any exam may, at the discretion of the Apprenticeship Committee, be removed from the program. However, should an apprentice fail the same exam on the second writing, he shall automatically be removed from the program. There will be no exceptions unless mutually agreed upon by the Company and the Union.

Selection Criteria

1. To determine if an applicant is physically suited to the position, an appropriate medical (format determined by the Company) administered by a physician, must be passed. This medical is to be taken before any aptitude tests or N.A.I.T. entrance requirements are initiated and all costs for the medical will be borne by the applicant.

This memo outlines the understanding between the parties as it relates to the responsibility for days of rest tracking and compensation.

It is also agreed that Labatt is responsible to monitor the days to ensure that the legislation/permit is not violated. One day of rest must be taken in each work week (7 days) or two consecutive days of rest must be taken in each period of 3 consecutive work weeks (21 days).

In the event that an employee works past 19 days without 2 consecutive days off, as a result of an employee’s days not being tracked, the employee will be required to take the appropriate number of days off at their own expense. Vacation bonus, banked time and/or regular vacation may be accessed if available and agreeable to both parties.

LoU 5 – Sick/Personal Credit Top-up Bank

The following will outline how this bank will operate.

Regular status employees will on an annual basis bank all unused sick/personal day credits in the sick/personal credit top-up bank. These employees may use this bank to provide for top-up pay to bring the employee's weekly rate up to regular full pay while the employee is on W.I., W.C.B., or L.T.D. The employee is not allowed to use this bank to earn more than his/her regular hourly rate while on any of the programs mentioned above (for example, the employee's daily rate shall not exceed 8 hours multiplied by his/her regular hourly rate).

Credits that go into the bank will be valued at the employee's hourly rate as of December 31 of the year the credits are from (for example, if the employee has 8 hours of credit to go into the bank and his/her hourly rate is \$22.10, the value that goes into the bank is \$176.80). This calculation will be done in January of each year.
